

COOKIE POLICY

Effective date: June 1, 2026

1. What Are Cookies

Cookies are small text files stored on a User's device when visiting the website of LLC "Enhanced Oil Recovery Enterprise 'SibBurMash'" (the "Site", the "Company"). Cookies allow the Site to recognize the User's browser on subsequent visits and to collect statistical information about how the Site is used.

2. Categories of Cookies We Use

- Strictly necessary cookies — required for the basic operation of the Site and cannot be disabled in our systems;
- Analytics cookies (including Google Analytics, Yandex.Metrica) — allow us to analyze traffic and User behavior in order to improve the Site;
- Functional cookies — store User preferences (such as interface language);
- Advertising/marketing cookies (where used, e.g., Meta Pixel) — used to display relevant advertising and measure campaign effectiveness.

3. Managing Cookies

On first visiting the Site, the User is shown a notice (banner) allowing them to accept all cookies, reject non-essential categories, or configure preferences individually. The User may also configure their browser to block all or some cookies, or to notify them when cookies are set. Disabling certain categories of cookies may affect the functionality of some features of the Site.

Under amendments to Russian Federal Law No. 152-FZ in force since May 30, 2025, collecting and analyzing a User's on-site behavior (clicks, page views, product views) is permitted only with the User's separate, explicit consent. Analytics and advertising/marketing cookies are switched off by default and are activated only after the User explicitly permits their use through the cookie banner; this consent is never bundled with consent for strictly necessary cookies.

4. Cookie Retention Period

Retention periods vary by cookie category — from session cookies (deleted when the browser is closed) to persistent cookies (retained for up to 24 months, depending on cookie type).

5. Changes to This Policy

The Company reserves the right to update this Policy. The current version is always available on the Site.

6. Contact Information
